

PRODUCT INFORMATION S2000-T-GerWell-N_TY_US - 05.01.2021 - www.vs-furniture.com

Series 2000 Type T. Counter element (low).

System consisting of a screen element with a counter attachment made of melamine-resin-, veneer- or linoleum-coated chipboard with plastic or wood edge. The counter attachment comes in the versions **flush with the screen** (001 linking and screen connection) and **flush (round) with the screen** (002 round closure element). Both versions can be combined on the left and right sides. Low counter elements serve as a reception point for children and can only be used between 2 high counter elements or as a screen connection.

Construction of frame design with an all-round aluminium profile section and a filler element. Side profile section with a vertical sight and function groove and an integrated, withdrawable plastic welt for tool-free connection of two counter elements.

Filler element 1. Made from melamine-resin-coated chipboard. 2. From a lightweight top with fabric covering. 3. From a melamine-resin-coated acoustic panel with slot. 4. From a translucent double panel.

Support element consisting of adjustable feet.

Connection to NetWork tables all round or to Series 901 tables longitudinally. Table height adjusters cannot be used.

The following material groups are available to choose from: Frame made of aluminium: M(anodisé); Stabiliser and foot made of aluminium: M(arctic, black RAL 9011); Top made of chipboard: L3; Top made of linoleum: L8; Top veneered: F1; Fabric cover: S46,52,73,74,78,79,80; Acoustic surface made of chipboard: L3.
