Shift+ ThumbPrint Stackable four-legged tables.

Frame consisting of welded round tubular steel legs, some of which are offset outwards, with a central edging made from rectangular steel tubing, all powder-coated. Some models have tube-in-tube Allen-key height adjustment (see table). Desks with four plastic, felt or 2C universal glide elements or with glide elements and two lockable castors.

Tables in 7 fixed heights or with 5-position Allen-key height adjustment, all in accordance with DIN EN 1729.

Table top made from melamine resin or laminate-coated chipboard with glued plastic edge or rigid CDF fibreboard or high-strength solid HPL top. The corners have 1/8" rounding.

Function: It is possible to combine the two mirrored concave-convex basic shapes in many ways to create circles, rows and groups. In the park position, the tables are stackable up to a height of six tables and are equipped with stack protection at the lower edge of the top frame.

Warning: A maximum of three stacked (unloaded) tables may be moved together on castors.

The following material groups are available to choose from: Frame made of steel: M1; Top made of chipboard: L4; HPL-top: L4; CDF-fibreboard: L4; Chipboard with laminate: L9.
